Instructions: Community Version

IMPORTANT: Only trained JCP Staff should complete this assessment. The youth or the youth's parent/guardian should NEVER complete the assessment. This is not a structured interview or survey instrument.

The JCP Assessment was developed to identify dynamic and static risk and protective factors that put youth at risk of delinquency, and to use this information to guide decisions regarding level and type of intervention and/or supervision. Additional information and materials are available at: <http://www.npcresearch.com>.

For sample interview or survey questions, please see the Screener Prompt Sheet, Interview Questions, or Youth and Parent/Family Surveys in the OJCP Screen/Assessment User's Guide or on the Web at <http://www.npcresearch.com>.

If you don't have sufficient information for a "Yes" or "No" response, or have conflicting information, check "More Info Needed." Completion (and data entry) of all fields is required.

If you are scoring manually and want to count the number of risk domains, check the large box () under the domain number if at least one circle in that domain has been checked.

- If youth is juvenile-justice involved, please obtain the **JJIS number** assigned to the youth and enter it on the form.
- **1.1 – 1.3 Language:** Before conducting the assessment, complete items 1.1 through 1.3. to help determine if the youth or family needs an interpreter. If either is not proficient in English, please stop the assessment and continue when an interpreter or individual proficient in the youth and family's language is available. *Remember, even though there are not specific questions on the JCP about the family's English comprehension, if a family member is present, you should also determine their need for an interpreter.*
- **1.4 Race/ethnicity:** Ask youth to self-identify his/her race, ethnicity or cultural heritage. If the youth identifies with more than one race or ethnicity, check all that apply.
- When you enter this information into the **JCP Data Manager database**, the OCCF system will also prompt you to select a "population group" (which includes race/ethnicity, gender, and language). This population group data will help OCCF programs have a consistent way of reporting the clients they are serving. Please replicate the information entered in the above fields when entering the population group information.

B. Assessor/Evaluator Information

- ❖ Fill in all information on the assessor conducting the assessment.
 - **Assessment Date:** Enter the date the JCP Assessment was conducted (or initiated). When an assessment takes place over a period of days, a single date must be identified for the JCP Assessment. This date should represent the beginning of the process. The JCP Data Manager database will always prompt the user to enter a date.
 - Indicate whether the **Assessment Type** is an "I" (initial screen) or "R" (reassessment).

- The **Primary Referring Agency**/individual should indicate the primary agency/individual responsible for bringing the youth to the attention of the JCP assessor (or agency). This field will help the programs better understand the avenues for which youth come to the attention of the JCP initiative, as well as serve as a case management tool. If the referral comes from an individual, try to indicate the agency (if applicable) after the name. For example: "John Smith, School Counselor", or "Jane Doe, Parent." In the rare case the primary referring agency is unknown, enter "unknown" in the database.

PART II. INDICATORS

Instructions: Information for the JCP Assessment can be gathered by interviewing the youth, family, and other sources. An assessor may also want to refer to official school, court, and/or other records for additional information.

- ❖ This section provides an answer sheet for recording identified risk and protective factors. Each item in this section includes the objective criteria for determining whether or not a factor is present.
- ❖ You should try to get sufficient information to answer all of the risk and protective factors. However, if you don't have sufficient information (or if you have conflicting information), check the middle column "More Info. Needed."
- ❖ This instrument is not a structured interview or survey. It is an answer sheet, and should not be filled out by the youth or parent/guardian. For materials that the youth or guardian can fill out, please see www.npcresearch.com.

PART III. SCORING AND TOTALS

Scoring: Only **un-shaded** items are scored.

- ❖ The risk factor numbers begin with the letter "R," the protective factor items begin with the letters "PF," items indicating change over time begin with the letter "C," and those that begin with the letter "T" are test items and are not scored.
- ❖ Each item where a circle is checked receives a score of "1." Shaded items are not included in the scoring of the assessment, but are included here for case planning (CP) and evaluation purposes.
- ❖ Items indicated with "MH" are mental health indicators. The presence of a mental health item indicates the assessor should consider additional mental health assessments and/or services and supervision for these youth.
- ❖ Research suggests that youth who have one or more of the JCP **violence indicators** may be more at risk of committing a violent act in the future. You should consider how to address the particular indicator in the youth's case plan. You can run reports from the JCP Data Manager to see which violence indicators are present in youth.

Eligibility: If you have checked at least one circle in a domain, check the box () in the left margin. If you have checked at least two boxes () in the left margin, the youth is eligible for JCP service.

- ❖ The **JCP Data Manger database** will automatically compute the number of domains, total JCP score, total risk factors and total protective factors.

PART IV. JCP SERVICE INFORMATION

FOR INITIAL ASSESSMENTS ONLY: If you are conducting an initial assessment, you only need to fill out section 11.

- ❖ **11.1 JCP Program/Service:** Indicate the JCP program or service that you are referring the youth to. Do not include other non-JCP services the youth may be receiving.
- ❖ **11.2** Indicate the reason you did not refer a youth to a JCP program or service.

FOR REASSESSMENT ONLY: If you are conducting a reassessment, you must complete sections 12-14 (you should leave section 11 blank).

- ❖ The **JCP Start Date** should indicate the day the youth began JCP Services (this date should be on or after the date of the initial assessment). The **JCP End Date** is the day the youth ended JCP services (if youth is still receiving services, leave this date blank).
- ❖ **12.3 Program Service Status:** Indicate the JCP program status of the youth under review (items 1-3). If the youth did not participate in JCP services, please indicate the reason for not completing (items 4-8).
 - If you indicated a reason on items 4-8 of question 12.3, you do not need to fill out any more information on the reassessment form. In the JCP Data Manager database, enter the additional fields as “null” if applicable.
 - **IMPORTANT:** If a youth is eligible for JCP services (has 2 or more risk domains on the initial assessment) a reassessment must be completed on the youth (even if it only indicates the youth did not receive program services, item 12.3).
- ❖ **13.0 Service Engagement:** This is a new section to the JCP, and has been added to help in the combined analysis of JCP and JJIS youth. The purpose of this set of items in JJIS is to determine if the youth’s original risk score should be adjusted (higher or lower) depending on how well the youth is responding to their case plan. For the community version of the reassessment, these questions should be answered in a similar fashion.
 - **13.1 Program/Activities**
 - A “yes” response indicates that the youth is participating satisfactorily in JCP program(s) and/or activity(s).

- **13.2 Skill Development**
 - A “yes” response indicates that the youth is participating satisfactorily in all planned skill development activities (such as anger management, etc.). Choose “does not apply” if the youth’s case plan does not include skill development.

- **13.3 Treatment Programs**
 - A “yes” response indicates that the youth is participating satisfactorily in all treatment conditions (such as substance abuse treatment, family counseling, etc.) as suggested in the case plan. If a youth is voluntarily participating in treatment unrelated to their presenting behavior or the treatment is not part of the case plan please select, “not apply.”
